

Tracer Wire

10 AWG Copper Clad Steel, PE45

Description: Flexible Tracer Wire is a Solid Copper Clad Steel, PE Insulated Conductor, suitable for detecting buried facilities. Wire is UL Rated.

Measurements:

Conductor: 10 AWG Copper Clad Steel, Solid
Insulation: High Molecular Weight Polyethylene
0.045" Nominal Thickness
Copper OD: 0.102" Nominal
Finished OD: 0.194" Nominal
Weight: 36.72 lbs/1000'

Properties:

Temperature: -20°C to 80°C
Operating Voltage: 600V
Insulation Color: Various Colors Available
Break Load: 445-475 LBS
Tensile Strength: 55,000-57,451 PSI

Print Legend:

AGAVE WIRE - 10AWG HMW-PE-(45) COPPER CLAD STEEL TRACER WIRE (UL) 600v E246360
