

Tracer Wire

14 AWG Copper Clad Steel, PE45

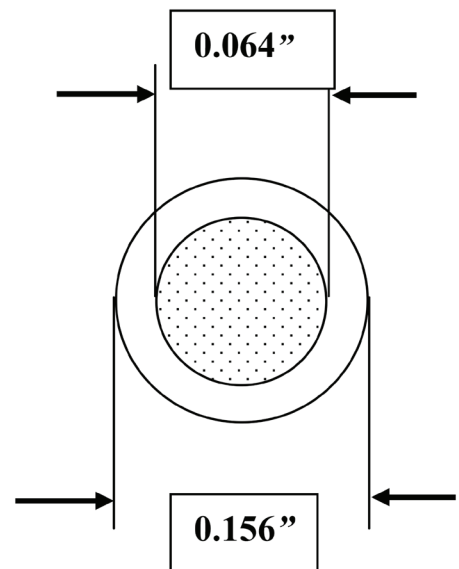

Description: Flexible Tracer Wire is a Solid Copper Clad Steel, PE Insulated Conductor, suitable for detecting buried facilities. Rated for direct bury. Wire is UL Rated.

Measurements:

Conductor:	14 AWG Copper Clad Steel, Solid
Insulation:	High Molecular Weight Polyethylene 0.045" Nominal Thickness
Copper OD:	0.064" Nominal
Finished OD:	0.156" Nominal
Weight:	17.50 lbs/1000'

Properties:

Temperature:	-20°C to 80°C
Operating Voltage:	600V
Insulation Color:	Various Colors Available
Break Load:	175-177 LBS
Tensile Strength:	54,251-55,000 PSI

Print Legend:
