

Tracer Wire

18 AWG Copper Clad Steel, PE45

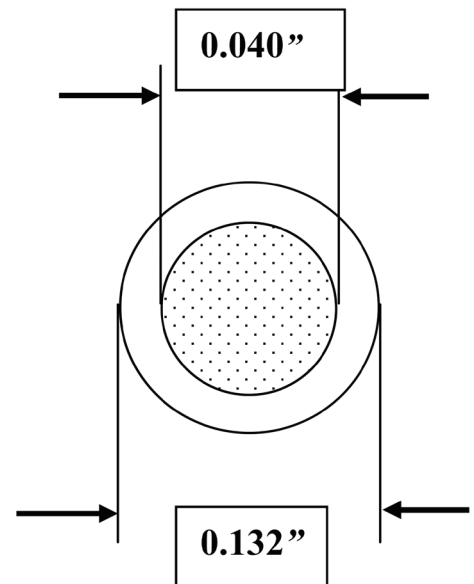

Description: Flexible Tracer Wire is a Solid Copper Clad Steel, PE Insulated Conductor, suitable for detecting buried facilities. Rated for direct bury. Wire is UL Rated.

Measurements:

Conductor: 18 AWG Copper Clad Steel, Solid
Insulation: High Molecular Weight Polyethylene
0.045" Nominal Thickness
Copper OD: 0.040" Nominal
Finished OD: 0.132" Nominal
Weight: 9.86 lbs/1000'

Properties:

Temperature: -20°C to 80°C
Operating Voltage: 600V
Insulation Color: Various Colors Available
Break Load: 69-70 LBS
Tensile Strength: 53,271-55,000 PSI

Print Legend:

AGAVE WIRE - 18AWG HMW-PE-(45) COPPER CLAD STEEL TRACER WIRE (UL) 600v E246360
