

## Valve Stem Extension - Adjustable

White Rhino Valve Stem Extensions are used to raise the elevation of both buried and "in-plant" valves having a 2" square operating nut. The extensions are made up 1" rod, 1" schedule 40 pipe, a 2-1/2" square top wrench nut with a 4-1/4" x 1/4" centering ring, and a 2"x2" bottom wrench nut coupling. Available in lengths of 2'-3', 4'-7', and 5'-9'. White Rhino Valve Stem Extensions are fabricated at EGW's Fabrication Facility in Carrollton, TX.
