

## Meter Seals

EGW's gas/water meter seal is designed to make quick work of locking out the supply valve on your customer's gas or water meter.

### Features & Benefits

- No more dealing with faulty metal locks due to ice, rust and dirt. Every seal is new!
- Less weight (a technician can easily carry a bag of 100 meter seals in one hand).
- Warns customers of extra charge if tampered with. The phrase, "PENALTY Do not remove seal" is molded onto the face of each seal.
- Available in several colors to denote why meter is shut off.
- Sold in quantities of 100 pcs per bag.
- Made in the USA!
